**NOTICE OF PUBLIC REVIEW
DEVELOPMENT STANDARDS PLAN
COUNTY OF SACRAMENTO
AND CITIES OF CITRUS HEIGHTS, ELK GROVE, FOLSOM,
GALT, SACRAMENTO, AND RANCHO CORDOVA
STORM WATER DISCHARGES FROM
MUNICIPAL SEPARATE STORM SEWER SYSTEMS
ORDER NO. R5-2002-0206, NPDES PERMIT NO. CAS082597
SACRAMENTO COUNTY**

The Municipal Separate Storm Sewer System (MS4) permit for the cities of Sacramento, Citrus Heights, Folsom, Galt, Rancho Cordova and the County of Sacramento (permittees) requires the development of a Development Standards Plan (DSP) describing the measures to reduce pollutant discharges to the Maximum Extent Practicable from all new development and significant redevelopment projects. The goal is to minimize the short and long-term impacts on receiving water quality from new development and significant redevelopment. In compliance with these requirements, the permittees have completed the DSP and submitted it for Regional Board approval. Prior to consideration by the Regional Board, the DSP will be available for a 30-day public review period. If you have any comments or recommendations regarding the permittees' DSP, they must be submitted to the Regional Board in writing, either in paper or electronic format, by **2 May 2005**. The Executive Officer may consider comments or recommendations and decide whether to approve the plans in a public meeting.

In order to conserve paper and reduce mailing costs, staff is making the DSP available via the Regional Board's web site (http://www.swrcb.ca.gov/rwqcb5/public_notices). Anyone without access to the internet should promptly contact Christine Palisoc to make other arrangements for review.

If you have any questions or comments, please call Christine Palisoc at 916.464.4663 or e-mail her at cpalisoc@waterboards.ca.gov
